

# Adoption results of 2nd Congress of Asia Association for Disability and Oral Health

Registration Number	session Number	category	Title
1	G4-3	Others	An appraisal of academic exchanges between JSDH and KADH since 2006
2	G3-4	Fundamental research	Glutamate receptor GluD1 affects the formation of barrels in the developing somatosensory cortex
3	G2-2	Clinical research	Dental treatment under general anesthesia for patients with Down's syndrome using a laryngeal mask airway
4	G1-4	Case report	Intranasal Midazolam Conscious Sedation for Dental Surgery in Child with Left Ventricular Noncompaction
5	G1-1	Case report	A case of gingivectomy and fenestration for numerous impacted teeth in patients with Reye's syndrome
6	G4-1	Others	Survey of fear of dental treatments in young people
7	G3-1	Fundamental research	Biofilm removal effect by combining new titanium dioxide rod and solar cell
8	G1-5	Case report	An example of partial deletion of the long arm of chromosome 1
9	G1-2	Case report	Oral weaning instruction was more effective in an infant with respiratory impairment: A Case report
10	G2-3	Clinical research	The current status of oral hypofunction among older adults in the day care center
11	G1-6	Case report	Complete Denture Fabrication Using Digitally Fabricated Copy Dentures for a Patient with Moderate Dementia
12	G1-3	Case report	A case of schizophrenia patient with selective mutism who received dental treatment by behavior change
13	G4-2	Others	Creating a Web-page on the eating guidance during school lunches at special needs schools for cooperation between medicine and education
14	G1-7	Case report	A case report on feeding instructions for a neurotypical child with a choking and gag-reflex
15	G1-8	Case report	The importance of face-to-face relationship for mutual understanding in regional medical corporation
16	G3-5	Fundamental research	Comparing the number of patients requiring oral management during COVID 19
17	G2-4	Clinical research	The eruption status of deciduous tooth in Down syndrome: Comparison with the 2016 Survey of Dental Diseases in Japan
18	G2-5	Clinical research	Changes in oral health, ADL and functional oral intake status from acute to subacute stage of stroke.
19	G2-6	Clinical research	A Study for Oral health Status of Patients with Disabilities in Jeonbuk National University Dental Hospital Between 2015-2018
20	G1-9	Case report	Dental management of a patient with hemophagocytic lymphohistiocytosis under general anesthesia: A case report
21	G1-10	Case report	Dental Management of a Patient with CHDFIDD under General Anesthesia: A Case Report
22	G2-7	Clinical research	An attempt to understand the psychological condition of a patient with disability through vital sensing and analysis of body movements
23	G1-11	Case report	Dental treatment of a patient with Ventricular Septal Defect under general anesthesia: A case report
24	G1-12	Case report	DENTAL TREATMENT OF A PATIENT WITH KABUKI SYNDROME: CASE REPORT
25	G2-8	Clinical research	Relationship between Color Tone of Tongue and Oral Moisture Levels in Elderly Persons
26	G3-6	Fundamental research	A Novel regulation of autophagy by potassium ion
27	G2-1	Clinical research	Shear wave elastography for assessing hardness of the tongue and geniohyoid muscles: a study on healthy adults.
28	G1-13	Case report	Home visit oral management of a patient with severe medication-related osteonecrosis of the jaw: a case report
29	G1-14	Case report	Considerations in dental treatments of pediatric patients with CHARGE syndrome under general anesthesia: Case Reports
30	G1-15	Case report	Dental management of a patient with Cornelia de Lange syndrome: A case report
31	G3-2	Fundamental research	Oral health of psychiatric inpatients
32	G1-16	Case report	Dental treatment challenges and outcomes in children with Neurological Disabilities- A review of three cases.
34	G3-7	Fundamental research	Using Virtual Reality Simulation Training System to Improve Geriatric Oral Care Performance
35	G2-9	Clinical research	Using AI-platform Intervention on Periodontal Treatment Outcome and Oral Health-related Quality of Life in Patients with Periodontal Disease
36	G3-3	Fundamental research	Study of the role of regional oral health care center for the disabled and dental hygienist
37	G1-17	Case report	Medication Related Osteonecrosis of the jaw in disabled patient; Case report
38	G2-10	Clinical research	Analysis of application of dental sedation in attention deficit hyperactivity disorder (ADHD) patients using the Korean National Health Insurance data
